ASSIGNMENT OF PATENT RIGHTS

THIS ASSIGNMENT OF PATENT RIGHTS (this "Assignment") is made as of May __, 2007, by and among Randy Burnworth (the "Assignor"), and Rave Engineering Corporation (the "Assignee").

In consideration of the foregoing premises and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Assignor and the Assignee agree as follows:

1. The Assignor hereby sells, assigns and transfers to the Assignee the Assignor's entire right, title and interest in and to the patents and patent applications listed on Schedule 1 attached hereto (collectively, the "Patents"), throughout the world and the inventions covered thereby, including any right to claim priority and any right to any continuation, division, or substitute application thereof and any right to any reissue, restoration, extension or reexamination of any Patent thereof, the same to be held and enjoyed by the Assignee for its own use and enjoyment, and for the use and enjoyment of its successors, assigns and legal representatives, to the end of the terms for which the Patents have been or will be granted, as fully and entirely as the same would have been held and enjoyed by the Assignor if this Assignment had not been made; together with, to the extent transferable, any claims by the Assignor for damages by reason of past infringement of the Patents with the right to sue for, and collect the same for its own use and benefit, and for the use and benefit of its successors, assigns and other legal representatives.

2. The Assignor will execute such documents and do such other acts as may be necessary for the Assignee to obtain, maintain, issue or enforce its rights in the Patents.

3. This Assignment (a) is irrevocable and effective upon the Assignor's signature to and delivery of a manually signed copy of this instrument or facsimile or email transmission of the signature to this instrument, (b) benefits and binds the parties hereto and their respective successors and assigns, and (c) may be signed in multiple counterparts.
